Listing of Amended Claims:

- 1-36. (Canceled)
- (Previously presented) An isolated polypeptide comprising the amino acid sequence of SEO ID NO:107.
- (Previously amended) A fusion protein comprising a first polypeptide comprising the amino acid sequence of SEQ ID NO:107 and a second polypeptide.
- (Currently amended) A pharmaceutical composition comprising a
 polypeptide of claim 37 and a physiologically acceptable carrier.
- (Original) The composition of claim 39, further comprising a non-specific immune response enhancer.
- 41. (Original) The composition of claim 40, wherein the non-specific immune response enhancer is an adjuvant.
 - 42-55. (Canceled)
- 56. (Previously presented) An isolated polypeptide comprising an immunogenic fragment of SEQ ID NO:107, wherein the immunogenic fragment of SEQ ID NO:107 is at least 9 amino acids in length.
- 57. (Previously presented) A fusion protein comprising a first polypeptide comprising an immunogenic fragment of SEQ ID NO:107, wherein the immunogenic fragment of SEQ ID NO:107 is at least 9 amino acids in length and a second polypeptide.
- 58. (Currently amended) A pharmaceutical composition comprising a polypeptide of claim 56 and a physiologically acceptable carrier.
- (Previously presented) The composition of claim 58, further comprising a non-specific immune response enhancer.

- (Previously presented) The composition of claim 59, wherein the nonspecific immune response enhancer is an adjuvant.
- 61. (Previously presented) A fusion protein according to claim 38, where said second polypeptide is an *M. tuberculosis* antigen.
- 62. (Currently amended) A pharmaceutical composition comprising a fusion protein of claim 38 and a physiologically acceptable carrier.
- (Currently amended) The pharmaceutical composition of claim 62, further comprising a non-specific immune response enhancer.
- (Currently amended) The pharmaceutical composition of claim 63, wherein the non-specific immune response enhancer is an adjuvant.
- (Previously presented) A fusion protein according to claim 57, where said second polypeptide is an M. tuberculosis antigen.
- (Currently amended) A pharmaceutical composition comprising a fusion protein of claim 57 and a physiologically acceptable carrier.
- 67. (Currently amended) The pharmaceutical composition of claim 66, further comprising a non-specific immune response enhancer.
- (Previously presented) The composition of claim 67, wherein the nonspecific immune response enhancer is an adjuvant.
- (Previously presented) An isolated polypeptide consisting of the amino acid sequence of SEQ ID NO:107.
- (Previously presented) A fusion protein comprising a first polypeptide consisting of the amino acid sequence of SEQ ID NO:107 and a second polypeptide.
- (Previously presented) A fusion protein according to claim 70, where said second polypeptide is an M. tuberculosis antigen.

- 72. (Currently amended) A pharmaceutical composition comprising a polypeptide of claim 69 and a physiologically acceptable carrier.
- 73. (Currently amended) A pharmaceutical composition comprising a fusion protein of claim 70 and a physiologically acceptable carrier.
- 74. (Currently amended) The pharmaceutical composition of claim 72, further comprising a non-specific immune response enhancer.
- (Currently amended) The pharmaceutical composition of claim 74, wherein the non-specific immune response enhancer is an adjuvant.
- (Currently amended) The pharmaceutical composition of claim 73, further comprising a non-specific immune response enhancer.
- (Currently amended) The pharmaceutical composition of claim 76, wherein the non-specific immune response enhancer is an adjuvant.
- 78. (Previously presented) An isolated polypeptide consisting of an immunogenic fragment of SEQ ID NO:107, wherein the immunogenic fragment of SEQ ID NO:107 is at least 9 amino acids in length.
- 79. (Previously presented) A fusion protein comprising a first polypeptide consisting of an immunogenic fragment of SEQ ID NO:107, wherein the immunogenic fragment of SEQ ID NO:107 is at least 9 amino acids in length, and a second polypeptide.
- (Previously presented) A fusion protein according to claim 79, where said second polypeptide is an M. tuberculosis antigen.
- (Currently amended) A pharmaceutical composition comprising a polypeptide of claim 78 and a physiologically acceptable carrier.
- 82. (Currently amended) A pharmaceutical composition comprising a fusion protein of claim 79 and a physiologically acceptable carrier.

- (Currently amended) The pharmaceutical composition of claim 81, further comprising a non-specific immune response enhancer.
- 84. (Currently amended) The pharmaceutical composition of claim 83, wherein the non-specific immune response enhancer is an adjuvant.
- 85. (Currently amended) The pharmaceutical composition of claim 82, further comprising a non-specific immune response enhancer.
- (Currently amended) The pharmaceutical composition of claim 85, wherein the non-specific immune response enhancer is an adjuvant.
